

Dear students,

Ovidius University of Constanta in partnership with Western University of Applied Sciences, Norway, organizes The **SUSTENT - Summer school (5-11 September 2022)** – part of the SUSTENT project. This project aims (among other objectives) to involve Romanian and Norwegian students that are willing and able to study, research, produce knowledge, and propose feasible solutions for the improvement of the sustainability dimensions of given enterprises.

The Romanian and Norwegian students interested in "Sustainable entrepreneurship" will first be trained by the research team in the SUSTENT Summer School 2022, in English, from the 5th to the 11th of September. The students that prove the most involved and driven during the summer school will be selected to continue in the project. They will take part in a study trip to Norway in October 2022 where they will learn about Norwegian sustainable enterprises. Upon their return, they will start working on their own case studies of Romanian enterprises together with their Romanian mentors. Up to June 2023 their research will be ready to be defended in Romania. The second study trip to Norway will take place in June 2023, and the students will have the opportunity to present their findings to the relevant Norwegian stakeholders as well. All the expenses for both travels in Norway will be covered by the project budget.

Registration form

<https://docs.google.com/forms/d/e/1FAIpQLSdW0Y4VDD-xUe0sHoVnzdq1IcKCphhFj2o3TLDC1nh7LCt3iQ/viewform>

From the Faculty of Mathematics and Informatics, two positions are proposed for traveling to Norway. Participating students will be able to learn from mentors from Norway and Romania and will be able to broaden their horizon of collaboration with Norwegian companies. The main topics covered in the summer school will be: Introduction to entrepreneurship, Sustainable entrepreneurship case-studies: Study trips, Understanding the customer, Defining the solution, Building the business model

The summer school represents both an opportunity that can enrich your entrepreneurial skills, but also from the point of view of the prizes and other benefits that you can get: graduation diplomas and volunteering, trips and so on.

There are so many benefits to attending the SUSTENT summer school! From social, cultural, and academic benefits, to life experience and confidence, all of them in a friendly international framework.
