

## ***Innovation. Disruption. Continuous optimization. Customer centricity.***

*If you believe those terms should define today's financial ecosystem, we would like to have you in our team at Banca Transilvania.*

### **To perform in this role, we would like you to have:**

- Bachelor degree in Computer Science or relevant experience –it's important to know the fundamental theories that guide a proficient developer, but we cherish even more your hands-on experience;  
Strong understanding of Object Oriented Programming principles;
- Minimum 3 years of experience in automation testing (preferably with Appium);
- Good analytical skills and proven experience in analyzing and testing complex business rules;
- Team Player with strong communication and interpersonal skills;
- Cross platform mobile testing.

### **Additionally, it would be great to see that you:**

- Are experienced with Atlassian tools – JIRA, Confluence;
- Have programming knowledge;
- Worked before in a CI&CD project.

### **If you'll join our team, you will be challenged to:**

- Execute manual (requirements analysis, test plan creation, test case creation and test case execution, regression testing) and automated test cases (preferably Appium);
- Create the Test data preparation for manual, automation or performing projects;
- Reporting different issues in a issue tracking tool;
- Peer to peer cod review over the automated and performance test cases;
- Help the other new team members integrate and help on developing the Testing Department.

### **For your effort and dedication, we offer a benefit mix:**

- Attractive benefits package;
- The chance to get yourself noticed in a young team, part of one of the biggest banks in Romania;

# SENIOR QA AUTOMATION ENGINEER (CONSTANȚA)

- The opportunity to work with people that are passionate about innovation and business evolution;
- Personal and professional development trainings and courses;
- Working environment and team that will make you enjoy the time spent in the office;
- Access to the latest technologies;
- Multiple online and offline benefits from our partners, nationwide;
- After work recreational activities, together with the team;
- Opportunities to grow your expertise, take on new challenges, and reinvent yourself inside the company;
- Other benefits that make us one of the most wanted company to work for, in Romania.

**Let's discuss the rest during the interview :).**
