## BUSINESS ANALYST

# Open Day

## BUSINESS ANALYST

### Business analyst **MINDSET**

1. Focus on business – calibrate solutions to business goals

7. Simplify until nothing can be removed

2. Solve the right problem

8. Take responsibility for shared understanding of business requirements

3. Question everything

9. Accept and embrace business change

4. Lead and facilitate

10. Be part of the solution

5. Analysis before synthesis; information before requirements

11. Expect human behavior from human beings

6. Uncover gaps – do not cover them up

12. Learn, adapt and thrive
